**POLITEKNIK NEGERI JEMBER**  
**TAHUN 2026**

## 1. Tugas

- Buat file public/.htaccess sesuai contoh.
- Buat routes/web.php.
- Buat public/index.php sebagai front controller.
- Buat HomeController dan MahasiswaController sederhana (hanya echo dulu).
- Uji URL: /, /mahasiswa, /mahasiswa/create, dan URL yang tidak ada (harus 404).

## 2. Tugas Mandiri

- Tambahkan dukungan parameter URL sederhana, misalnya /mahasiswa/5 memanggil show(\$id) dengan \$id = 5. (Bisa menggunakan regex atau explode).

## 3. Pengerjaan dan Pengujian

- public/.htaccess

```
public >  .htaccess
1  # public/.htaccess
2  RewriteEngine On
3  RewriteCond %{REQUEST_FILENAME} !-f
4  RewriteCond %{REQUEST_FILENAME} !-d
5  RewriteRule ^ index.php [QSA,L]
6  |
```

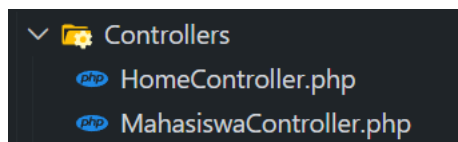

- routes/web.php

```
return [  
    'GET' => [  
        '/' => ['HomeController', 'index'],  
        '/mahasiswa' => ['MahasiswaController', 'index'],  
        '/mahasiswa/create' => ['MahasiswaController', 'create'],  
    ],  
    'POST' => [  
        '/mahasiswa' => ['MahasiswaController', 'store'],  
    ],  
];
```

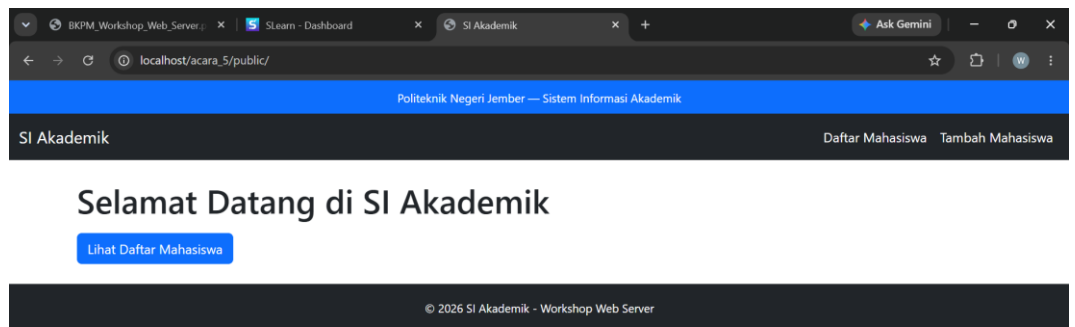

- public/index.php

```
// Konfigurasi & routing  
$config = require __DIR__ . '/../config/app.php';  
$routes = require __DIR__ . '/../routes/web.php';  
  
// 4. Jika tidak ketemu, tampilkan 404  
http_response_code(404);  
$content = __DIR__ . '/../app/Views/errors/404.php';  
require __DIR__ . '/../app/Views/layouts/main.php';
```

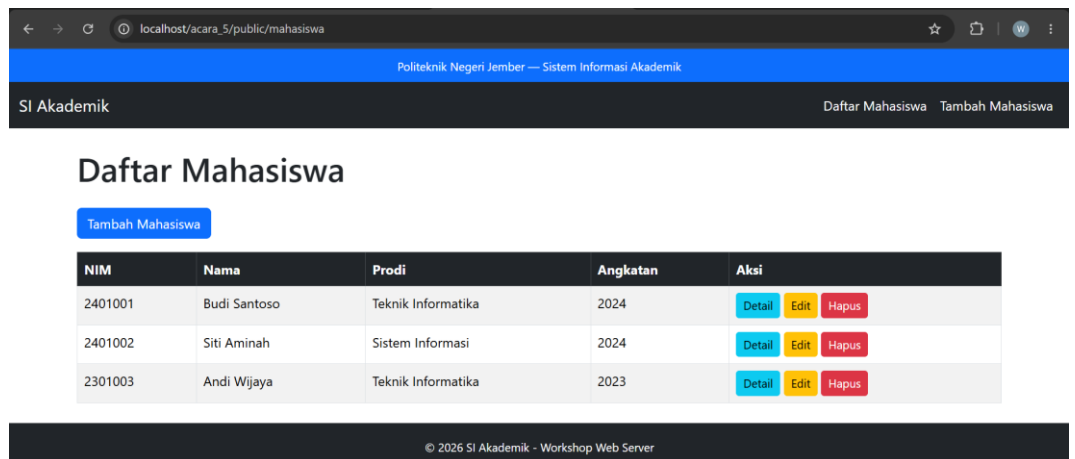

- Controller sederhana

- Tes url /

- Tes url /mahasiswa

- Tes url /mahasiswa/create

The screenshot shows a web browser at the URL `localhost/acara_5/public/mahasiswa/create`. The page has a blue header with the text "Politeknik Negeri Jember — Sistem Informasi Akademik". Below the header is a dark navigation bar with "SI Akademik" on the left and "Daftar Mahasiswa" and "Tambah Mahasiswa" on the right. The main content area is titled "Tambah Mahasiswa" and contains three input fields labeled "NIM", "Nama", and "Prodi". Below these fields are two buttons: "Simpan" (blue) and "Batal" (grey). At the bottom of the page is a dark footer with the text "© 2026 SI Akademik - Workshop Web Server".

- Tes url yang tidak ada (throw ke errors/404.php)
